4	Gene	Stanton	D	Yes	Yes	Yes	Yes	Yes	Yes	I am an active member of HRC (The Human Rights Campaign) and Equality Maryland and have fought for rights for the LGBT community. I have advocated for open government and transparency at the county level and I have advocated and supported immigration reform at the federal level.	I would also co-sponsor legislation to reform Maryland's prison system to make sure violent criminals are never housed with non-violent criminals. I will fight for marijuana reform and would co-sponsor legislation to fully decriminalize marijuana and place it under the regulation of Maryland's Alcohol and Tobacco tax bureau.

8	Steve	Verch	D	Yes	Yes	Yes	No	Yes	Yes	I received training and served as a Court Appointed Special Advocate for Children-In-Need-of-Assistance (CINA) in Baltimore City. As part of our advocacy, I and another CASA volunteer were assigned to assist five siblings with foster care placements, medical care, and related matters. As an attorney, I have also been appointed by the Circuit Court for Baltimore County to represent children as a guardian ad litem in court proceedings.	I support, and if elected to the House of Delegates, would sponsor, legislation to make the operations of Maryland State Government more transparent, and more state documents available on line. Lastly, I support and will advocate for the legislature's Joint Budget and Audit Committee conducting a performance audit of how state agencies respond to public information requests, and generating recommendations for improving citizen access to state records.

I will continue to promote Civil Rights and Civil Liberties in writings and speaking regarding various issues. Participated in demonstrations opposing voter ID law changes in Pennsylvania.	#1 Education: I will aggressively address the academic achievement gap and the re-segregation of schools, including targeting additional funding for the most troubled schools beyond prescribed formulas. #2 Health Care: I will focus on access to quality health care for all people in an effort to eliminate disparities in health.

10	Frederick	Strickland	D	Yes	Yes	Yes	Yes	Yes	Yes	I would like to be a co-sponsor of House Bill 29. That Bill would help to dismantle the Secure Communities Program in Maryland. I've publicly said, and I've written my opposition to Secure Communities on my website; it has led to racial profiling of our Latina neighborhoods. Another issue I want to work on is Affirmative Action in higher education, and I've publicly stated my position on my website about this issue. I want to serve on a committee that would protect Affirmative Action policies in higher education. In fact, I would help lead the charge on this issue of HBIs or historically black institutions of higher learning in Maryland, arguing discrimination by the state of Maryland, in that traditional white institutions of higher learning have created a separate but equal like	The current rise in immigration to Maryland makes a case for protecting civil rights for everyone. Ensuring voting rights is a key element in the protection of civil rights. The attack on voting rights across the country by may one day have to be addressed in Maryland. Therefore, I want to protect and promote civil rights by ensuring voting rights are not restricted in any way in Maryland. With the surging immigrant population in my district and to Baltimore, voting rights will be an important issue. To this end, I would support protecting early voting and expanding opportunities to vote early. In the 10th District, we have only two places to vote early, but we have a week to vote. This is like having your candy but not able to eat it when you want it. If you're going to have early voting let's make it convenient and

11	Dana M.	Stein	D	Yes	No	Yes	Yes	No	Yes	I introduced legislation in 2013 that would have limited MTA's ability to record passenger conversation. I also was a strong supporter of Marriage Equality legislation.	I will support legislation that limits local law enforcement's ability to arrest and detain individuals suspected of immigration violations. I will also support legislation that will limit government's ability to obtain and store electronic data.

12	Eric	Ebersole	D	Yes	Yes	Yes	Yes	Yes	Yes	As a teacher and leader in my school building, I am an advocate for equity among the students. I organize and sponsor several after school and in school remediation programs to help level the playing field between those of varying socioeconomic groups. I have also been an outspoken advocate in my community for marriage equity. I am proud to have helped get that law passed through referendum and look forward to continuing the march toward full equity for those in this group.	I will make sure that policies which over or under represent groups unfairly are dispensed with or applied equitably. For example, I will support a continuation of the death penalty ban. Not only do I feel this punishment is cruel and unusual, I also know that it is applied unevenly to minority groups. Another example would be the laws restricting marijuana. Decriminalization is a first step in dispensing with a law that punishes minority groups in greater percentages and creates recidivism.
12	Renee	McGuirk-Spence	D	Yes	No	Yes	Yes	Yes	Yes	I have not held public office before. However, I have advocated for children, youth and families in my role as Director of Government Relations for MSDE.	I will ensure that civil rights for all Marylanders are protected. I am especially interested in the rights of special education students and disabled adults.
12	Gordon	Bull	R	Yes	Yes	No	Yes	Yes	Yes	I have publicly opposed domestic spying/wiretapping and SB281's violation of the 2nd Amendment. I've also spoken publicly many times regarding the defense of Civil Rights for all Marylanders as well as opposing government programs that compel individuals to purchase products and services they do not want or need.	I will advocate for full restoration of our 2nd Amendment Rights as well as opposing any and all attempts to obtain our private digital information without a warrant, as I am a strong supporter of the 4th Amendment. Additionally, I will oppose the use of speed and red light cameras.

15	Bennett	Rushkoff	D	Yes	Yes	Yes	Yes	Yes	Yes	With other members of my Rockville, Maryland congregation, I have rallied and lobbied in Annapolis in support of marriage equality, transgender equality, and repeal of the death penalty. I wrote a flyer in opposition to the referendum against marriage equality and distributed it at the Shady Grove Metro Station.	I will support alternatives to suspending public school students, such as placing disruptive students in smaller, two-teacher classes until they are ready to rejoin their regular classes. I will support legalizing, regulating, and taxing marijuana sales.

15	David	Fraser-Hidalgo	D	Yes	Yes	Yes	Yes	Yes	Yes	Co-sponsored and voted for "Fairness for all Marylanders Act" in the 2014 Legislative Session. Co-sponsored, advocated and gave a speech on the house floor for marijuana decriminalization.	Continue to work to legalize, regulate and tax, marijuana like alcohol. Continue to educate public on Fairness for All Marylanders as there is still much work to be done. Limit government intrusion into personal issues, wire tapping, internet monitoring, drones.
15	Aruna	Miller	D	Yes	Yes	Yes	Yes	Yes	Yes	I am a proud co-sponsor and voted to repeal the death penalty in Maryland. Capital punishment is imposed disproportionately upon offenders who are people of color, poor, and uneducated; it does not deter crime; and most importantly, the effects of capital punishment cannot be reversed when an innocent person is wrongfully convicted. Violence against women is one of the most widespread violations of human rights. In 2011, I was the lead sponsor of HB 724—Sexual Offense in the Fourth Degree—Statute of Limitations which increased time for minors to report sexual offenses from 1 to 3 years.	Gender equality in the workplace is very important to me. Despite all our rhetoric about family values, our labor policies to support new parents in the workplace are worse than any other country in the developed world. I will introduce legislation for paid parental leave for it has social, health, and economic benefits and one that should be a partnership between the government and businesses. I will also work towards policies that place emphasis on STEM education for our preK-12 education and initiatives to close the achievement gap.

16	Marc	Korman	D	Yes	Yes	Yes	Yes	Yes	Yes	I have been an active supporter of civil rights and civil liberties including marriage equality, which is why EqualityMD (another of the foremost civil rights organizations in the state) has endorsed my campaign. I also worked with a coalition to pass a voter registration reform change making it easier for those switching parties to vote in primaries.	1. I will vigorously support and advance legislation to for legalization, taxation, and regulation of marijuana which will address an important civil rights issue while bringing the state needed revenue. 2. I will work to make sure that state privacy laws are updated to address 21st century technological issues including web browser tracking, social media, and facial recognition. 16	Jordan P.	Cooper	D	Yes	NR	Yes	Yes	Yes	Yes	I stood behind Marriage Equality in Maryland and have worked to expand access to high quality healthcare for all Marylanders.	I will work to ensure that every Marylander, documented or not, has access to healthcare for every part of their body. I will work to ensure that the subcommittee process is transparent and that our personal information online is secure from surveillance.
16	Bill	Frick	D	Yes	NR	NR	Yes	Yes	Yes	I have worked closely with the ACLU and with Sara Love on a number of matters, including marijuana reform and criminal laws. 20	Will	Jawando	D	Yes	Yes	Yes	Yes	Yes	Yes	<p>As a member of the Montgomery County African American Student Achievement Action Group, I have been working to close achievement and opportunity gaps for students of color in our school system. This includes calling on the school system to end the disparate discipline practices like suspension and expulsion with regards to students of color.</p> <p>As a student at Catholic University, I organized the university's first student chapter of the NAACP. The university initially denied the establishment of the chapter but after months of public protest and picketing we won the right to organize. Once established, we advocated for the rights of the cafeteria and janitorial workers at Catholic many of whom lived in Maryland and were subject to low wages and retaliatory treatment.</p>	<p>1. Call for a systematic review of Maryland's criminal justice system and pursue policies that focus on rehabilitation, reentry as opposed to the current mass incarceration model. This includes policies that will expand alternatives to incarceration and offer community-based alternatives to traditional sanctions, including drug treatment, education, and job training. Other states have seen drops in crime and recidivism by instituting programs like drug courts, diversion programs, mental health and community courts which link offenders to social services and community restitution. Additionally, I have advocated in Annapolis with others in our state for an equal pay law to close the gender pay gap between men and women as well as a mandatory paid sick leave law. These issues will a top priority as delegate.</p>
20	David	Moon	D	Yes	Yes	Yes	Yes	Yes	Yes	<p>I currently work at Demand Progress, a 1.5 million member civil liberties organization and have been involved in advocacy against NSA surveillance, drone use, and Internet censorship. This is not a new interest of mine, as I was an intern at the ACLU in 1998 and stay involved in organizing for death penalty repeal and criminal justice reform for years after. A few years ago I launched a state politics blog (Maryland Juice), and one of my primary motivations was to highlight civil liberties issues that Democrats should be stronger on such as criminal justice reform, privacy, immigration issues like Secure Communities, and much more. Politically, I have identified as a progressive civil libertarian for many years, as these issues are top priorities for me.</p>	<p>Given that voters are on many issues more grounded in the public interest than lawmakers, I continue believe that a key goal for Maryland advocates should be to build the political voice for social justice and civil liberties causes.</p> <p>I hope to help catalyze a progressive caucus into existence, and civil liberties issues should be a core agenda item for this group of lawmakers. There already exist numerous Maryland lawmakers on the right who identify as "liberty caucus" members, and so we have an opportunity to build left-right synergy on many of the pressing but ignored issues of our time (eg: government surveillance and mass incarceration). Let's get this done!</p>

22	Rushern L. IV	Baker	D	Yes	NR	Yes	Yes	Yes	Yes	One of my first internships was working with CASA de Maryland fighting for immigration rights. I never forget these communities and the children that live in them. I believe every student should have access to a well rounded, world class education. During my time working for M-NCPPC (Park and Planning) I took a concept for a mobile "Art Van" and targeted underserved communities that had their art funding cut, and provided art activities that were lacking. This helped the student reengage with the world around them by providing a much needed creative outlet.	I believe healthcare and education are two most important civil rights issues of our time. I will fight for increasing school construction funding, fully funding pre-kindergarten for all children, and expanding effective programs in STEM, language immersion, and the arts. When it comes to healthcare, I strongly believe that no one should have to choose between paying for groceries or prescriptions or be forced into bankruptcy because they can't afford their medical bills. The Affordable Care Act and Maryland Health Exchange are steps in the right direction, but we cannot stop there. We should not settle for anything less than all Marylander's having access to high-quality, affordable healthcare. I will fight to ensure we keep expanding access and making healthcare more affordable, like expanding programs
